NEVADA VITAL STATISTICS REPORT

1983-1984

RICHARD H. BRYAN
Governor

NEVADA STATE HEALTH DIVISION
SECTION OF VITAL STATISTICS

NEVADA VITAL STATISTICS REPORT

1983 - 1984

Authorized by:

Jerry Griepentrog, Director
Department of Human Resources

Lawrence P. Matheis, Administrator
Nevada State Health Division

Compiled and Edited by:

Olga Larson, Field Representative
Section of Vital Statistics

Special Thanks to:

Kelly G. MacKellar, Vital Records Specialist II
Office of Vital Records

Jean I. Gunter, Vital Records Specialist III
Quality Control Section, Vital Statistics

ART CREDIT

Our thanks to Mr. Felix Sanchez, Jr. of Carson City, Nevada, for the contribution of his pen and ink drawings of various historical buildings found in Northern Nevada.

Introduction

This report summarizes data compiled from original birth, death, stillbirth, induced abortion, marriage, and divorce records filed with the Section of Vital Statistics as required by law. Standard forms recommended by the National Center for Health Statistics are used for all records, with the exception of marriage and divorce.

Responsibility for filing of the birth certificate lies with the hospital medical records personnel, the physician, midwife, or other attendant. Undertakers or persons acting as such are legally charged with filing death certificates and fetal death certificates. County Recorders are responsible for forwarding the original marriage certificates to the Vital Statistics office for data collections and the final mailing process to the parties of record. The County Clerk of each county is required to submit a Report of Decree of Divorce/Annulment to the Vital Statistics office for each occurrence in the preceding month. Induced abortion reports are completed and sent in directly by the physician, hospital, or clinic. The quality of data presented in this report is directly related to the completeness and accuracy of the information contained on the certificates.

Users of this publication are welcome to offer us their comments and/or suggestions. Comments or questions concerning format, content, technical aspect of the publication, or requests for additional data should be submitted to: Nevada State Health Division, Section of Vital Statistics, Steven J. Abba, Support Services Manager, 505 E. King St., Rm. 102, Carson City, Nevada 89710.

The Nevada Vital Statistics System

The Nevada Section of Vital Statistics is composed of three distinct sections. 1) the Vital Records Section, 2) the Quality Control Section, and 3) the Data Entry Section. These three areas carry on a statewide system of registration, collection, and preparation of data and public services pertaining to births, deaths, adoptions, paternities, induced abortions, marriages and divorces.

All vital events are first recorded by the local registrar in each county, who in turn forwards the original record or report to the Vital Statistics office. The Quality Control Section checks the certificates for accuracy and completeness before filing the records in a fire proof vault for permanent storage.

After ninety days the certificates are then taken to the Data Entry Section where statistical data tapes are initiated. The Vital Records Specialist III is then responsible for the computer programs used to compile the data for this report. All formats and methodology used are compiled and edited by the Vital Statistics Field Representative.

DEFINITIONS AND METHODS FOR STATISTICAL RATES

ABORTION - The termination of a human pregnancy with an intention other than to produce a live birth or to remove a dead fetus. (NRS 442.240)

ABORTION RATE - Total number of abortions divided by total live births times 1000.

DIVORCE - As used in this publication, divorce includes annulment.

DIVORCE RATE - Total number of divorces divided by population times 1000.

ESTIMATED POPULATION - Population bases used in the calculation of rates were prepared by the State Office of Community Services. Estimated populations are stated as of July 1 of the year for which the estimate is made.

FETAL DEATH (Stillbirth) - Means a birth after at least 20 weeks of gestation in which the child shows no evidence of life after complete birth. (NRS 440.070)

FETAL DEATH RATE - The total fetal deaths divided by the number of live births plus fetal deaths times 1000.

IMMATURE BIRTH - A birth wherein the birth weight is equivalent to 2500 grams or less. (Approximately 5lbs. 8oz.)

IMMATURE BIRTH RATE - Total immature births divided by total births times 1000.

INFANT DEATH - The death of an infant under one year of age including neonatal deaths.

INFANT DEATH RATE - The total infant deaths divided by the total births times 1000.

LIVE BIRTH - A birth in which the child shows evidence of life after complete birth. A birth is complete when the child is entirely outside the mother, even if the cord is uncut and the placenta still attached. The words "evidence of life" include heart action, breathing, or coordinated movement of voluntary muscle. (NRS 440.030)

LIVE BIRTH RATE - The number of live births divided by the population times 1000.

MARRIAGE - Marriage is filed with the County Recorder in the county where the license was purchased.

MARRIAGE RATE - Total marriages divided by estimated population times 1000.

NEONATAL DEATH - A death occurring in the first 27 days of life.
NEONATAL DEATH RATE - The total neonatal deaths divided by the total live births times 1000.

PERINATAL DEATH - The total number of fetal deaths plus the number of neonatal deaths.
PERINATAL DEATH RATE - The number of fetal deaths plus the neonatal deaths divided by the number of live births plus fetal deaths times 1000.

DEATH - A person who has sustained irreversible cessation of all functioning of the brain, including the brain stem, is dead.
DEATH RATE - The total number of deaths divided by the estimated population times 1000.

CAUSE OF DEATH - Deaths, by cause, are classified according to the International Classification of Disease, Ninth Edition, adapted for use in the United States.
DEATH RATE FROM SPECIFIC CAUSE - The number of deaths from a specific cause divided by the estimated population times 1000.

SIDS - Deaths due to Sudden Infant Death Syndrome.
SIDS RATE - The total number of deaths due to Sudden Infant Death Syndrome divided by the total live births times 1000.

RESIDENT DATA - Data allocated by place of residence of the decedent, or by place of residence of the child's mother (deaths, births).

OCCURRENCE DATA - Data allocated by place where event actually occurred.

NEVADA
ACCIDENTAL
DEATHS
1983-84

Relic of Assay Office - The Ophir Silver Mining Company, Washoe Valley, Nevada

KEY PAGE
ACCIDENTAL DEATHS

MV - MOTOR VEHICLES

OV - OTHER VEHICLES

WT - WATER TRANSPORT

AT - AIR TRANSPORT

PD - POISONING/DRUGS

MM - MEDICAL MISADVENTURE

FL - FALLS

FR - FIRES

DR - DROWNINGS

FO - FALLING OBJECTS

BO - BETWEEN OBJECTS

MA - MACHINERY

EM - EXPLOSIVE MATERIALS

FA - FIREARMS

CM - CORROSIVE MATERIALS

EC - ELECTRICAL CURRENT
